

IT'S GOOD TO HAVE CHOICES.

WITH DOMINION'S ENERGY CHOICE PROGRAM, YOU PICK THE NATURAL GAS SUPPLY OPTION WITH THE PRICES AND PLANS THAT OFFER THE MOST FOR YOUR MONEY.

With Dominion's Energy Choice program, you get to pick the gas supply option that works best for you—one with prices and plans that offer the most for your money. And here's how it works.

Eligible Dominion East Ohio customers can participate in three different ways:

- You can evaluate all of the options and choose the Energy Choice natural gas supply option you think is best for you.
- You can choose to join a municipal aggregation program, if one is available in your area.
- Or you can simply choose not to make a choice—and your natural gas supply won't be affected at all.

No matter which of the three choices you make, Dominion East Ohio will continue to deliver natural gas to your home, read your meter, handle billing, and provide both emergency and customer service. And if you've already made a gas supply choice, you don't have to do anything at all.

So please visit www.DominionGasChoice.com to learn about your energy choices. You'll find even more information about the Energy Choice program's current prices and options, how to choose a supplier and read your gas bill, and information about conservation and other ways to make your energy dollars go farther. Other valuable resources and insights can be found on the Public Utilities Commission of Ohio's Web site, at www.PUCO.ohio.gov; and on the Office of the Ohio Consumers' Counsel Web site, at www.pickocc.org.
